

## Family Readiness Checklist

Please ensure the following resources are in place to support a VLD.

- Primary Internet line.
- Backup 4G Internet access.
- Student logins for online tools used for the drill (Edmodo, Google, etc.)
- Uninterruptible powers supply (UPS) connected to your Internet modem.
- Phone number for tech support (+44 22549000 ext 2129)
- Email addresses of all teachers

## VLD Scenarios

- **Scenario A** - Planned VLD with Intact Infrastructure:  
We are notified ahead of time that school must close for no more than one or two days.
- **Scenario B** - Unplanned VLD with Intact Infrastructure:  
School closure on short notice for an undetermined number of days.
- **Scenario C** - Hybrid VLD:  
AISC Campus is open to all teachers and students who are able to access campus safely. A significant number of students and some faculty may be unable to do so.

## Internet Backup and Stability

### 1. 4G USB Stick

### 2. Hotspot from 4G-enabled phone or tablet

### 3. Uninterruptible Power Supply (UPS) to connect Landline Router/Modem

# AISC Continuity of Instruction

Ensuring readiness to continue academic learning in the event of an extended school closure.

# Continuity of Instruction

Online learning during an extended school closure.

## Virtual Learning Days

To continue our academic program in the event of an extended school closure, AISC has a robust plan to support distance learning for our students. In the event of a health-related, political, or non-infrastructure related emergency, we may engage Virtual Learning Days (VLDs) to continue effective education of students within 24 hours of an emergency and for up to 30 days.

### When might we engage a Virtual Learning Day (VLD)?

Virtual Learning Days may be engaged anytime a closure has the potential to last for more than one day. We will make every attempt to provide 24 hours notice before running the VLD protocol.

### Who does this affect?

All students at AISC will engage in learning exercises provided by their teachers through our normal online learning and communication channels.

### What are the expectations for my child?

Each child will complete a series of learning exercises for the classes or subjects that they would normally have on the day of VLD. This schedule will be communicated through PowerSchool (MS & HS) or Edmodo (ES).

### How will my child learn at home?

All classes will post specific instructions each day using PowerSchool or Edmodo. Learning activities will involve three key components:

- Print or multimedia content
- Online interaction with the teacher
- Short non-graded assessment

### What if my Internet fails during a VLD?

We strongly recommend that all parents have a primary and backup Internet option, which are outlined on the reverse of this brochure.

### What if we have problems logging in to sites?

Teachers will provide a list of sites and logins for students where appropriate. The IT department will be available to help students with any technical issues.
